DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3, 8-10, 14, 18 and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Jovin Comm.(CA 2,206,062).

Claims 1-3, 8-10, 14, 18 and 21, the drawing on page 5 discloses a mast, an antenna, and an underground foundation supporting the mast and having a chamber enclosing electronics as recited.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 4-7 and 16-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Jovin Comm in view of McGinnis(6,557,312).

Claims 4-5, Jovin Comm does not disclose a seat. Figure 1 of McGinnis discloses a seat(33) positioned above a base(11) for laterally securing a mast(15).

Claim 6, figures 4 and 5 of McGinnis disclose a chamber formed from three walls(11) each with a roof where the mast(39) extends through an opening between the walls and roofs.

Claim 7, figure 5 of McGinnis discloses a sleeve(41) about a lower end of the mast and received by a seat(31).

Claims 16-17, concrete is a well known construction material for underground structures and would be an obvious choice for the material of the disclosed chamber.

It would have been obvious to one of ordinary skill in the art at the time of the invention to use the seat and other structures disclosed in McGinnis with the installation disclosed in McGinnis for improved mast support as disclosed in McGinnis.

Allowable Subject Matter

5. Claim 22 is allowed.
6. Claims 11-13 and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
7. The following is a statement of reasons for the indication of allowable subject matter. The following limitations are primarily responsible for distinguishing these claims over the prior art.

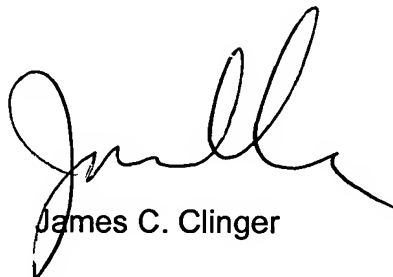

Regarding claims 11-13 and 22, the limitations concerning the positioning of the air intake and air exhaust on the mast as recited in claim 11; and regarding claim 15, the limitation concerning the interior of the mast providing access to the chamber.
